Kemmie-dev.herokuapp.com
Lagos, Lagos

Summary

I am passionate about learning and also using web technologies to bring ideas into scalable products with deep consideraton of web design standards, user experience, usability and speed. I also love evangilising and volunteering to teach newbies in web development. I am also a big advocate for open source and is getting started with exploring it.

Experience

Web Instructor

Developers Student Club Futa. • Remote, Remote
08/2020 - Present

I am the HTML instructor and I taught the students via what'sapp how to get started with HTML and also how to use most of the HTML5 elements. I also taught them how to write clean codes. I assigned projects to the student to test their skills. Four students progressed to the advanced CSS class of the cohort.
